## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. §§ 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-12, 13 and 15-30 in part, drawn to an isolated polynucleotide comprising a manganese superoxide dismutase regulatory element of SEQ ID No. 1.

Group II, claim(s) 1, 2, 4-12 and 14-30 in part, drawn to an isolated polynucleotide comprising a manganese superoxide dismutase regulatory element of SEQ ID No. 2.

Group III, claim(s) 3, 4, 6-12 and 15 in part, drawn to an isolated polynucleotide comprising a manganese superoxide dismutase regulatory element of SEQ ID No. 5.

2. PCT Rule 13.2 requires that unity of invention exists only when the shared same or corresponding technical feature is a contribution over the prior art. The inventions listed as groups I-III do not relate to a single general inventive concept because they lack the same or corresponding special technical feature. The "special technical feature" of Groups I-III is a manganese superoxide dismutase regulatory element which is shown by Van Camp et al (Plant Physiol 1996 112(2): 525-535; entire document, see for instance the Abstract on p. 525) to lack novelty or inventive step and does not make a contribution over the prior art. As the recited structure does not make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. It is noted that claims 6-11 are improperly multiply dependent. In responding to the restriction requirement, it is suggested that claims 6-11 be amended appropriately to correct the improper multiple dependencies.

Certain papers related to this application may be submitted to Art Unit 1636 by facsimile transmission. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 C.F.R. § 1.6(d)). The official fax telephone numbers for the Group are (703) 308-4242 and (703) 305-3014. NOTE: If Applicant does submit a paper by fax, the original signed copy should be retained by applicant or applicant's representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED so as to avoid the processing of duplicate papers in the Office.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bronwen M. Loeb whose telephone number is (703) 605-1197. The examiner can normally be reached on Monday through Friday, from 11:00 AM to 7:30 PM. A phone message left at this number will be responded to as
